kaiserreich [loadi/load] Dec 11, 2016 The Kaiserreich team is proud to present the second in the Kaiserreich series of mods for Hearts of Iron II, and an auspicious one too: The Kaiserreich Dec 11, 2016 Kaiserreich is an alternate history total conversion mod for Darkest Hour and Hearts of Iron IV. The point of divergence in this mod is the... Dec 11, 2016 Kaiserreich 4 is here! Sep 15, 2016 Learn about Kaiserreich 4 at the dedicated Kaiserreich 4 page. This is the first mod from Kaiserreich and its in a really good place so far. Sep 15, 2016 Kaiserreich 4 is a total conversion mod for HOI 4. For any doubts, it does not influence the faction balance in the game. So, it's a standalone mod and it's not a derivative of another one. The main difference from the previous mod is that it does not compromise a faction during the war time. This mod adds one new faction, so, why a new mod? It's because the original mod was based in a very specific timeline and given a place, so it would make no sense to change it. Even we would like to bring the new things to this mod, we have to maintain the original idea. But, to be honest, there is no need to be that strict. If you had a mod for the world wars in the Eastern Europe and you wanted to add a new faction from the ancient era, it would make no sense if that faction would be related to the world wars in the Soviet Union and in Europe. We try to do the opposite because we do not want to interfere with the timeline or create a weird and unrecognizable universe. However, we also try to offer a real and believable setting with a universal appeal. It might sound like a trivialization and it's true, we are not very accurate on the detail, but the good players will be able to provide the data and of course the mods will be an extra challenge, so we will see. The main focus of the mod is new units, new country specific techs and endless new things to explore. Dec 23, 2016 With the release of the new Kaiserreich version, more things changed, particularly in the tech tree, which is based on a not fully completed 1.3.4 version of the mod.

You have the latest version installed! Go to the steam workshop and find the Kaiserreich mod, then click the subscribe button. After that, the mod will automatically install, and you can turn it on .
